Old Business

- a. Log Jam Removal – Muskingum Watershed Conservancy District (MWCD) has some funds available – the Licking County Commissioners and Soil and Water Conservation District have applied in the past for such funds.
- b. Feeder Channel Maintenance – there is no new information, but it is known that a study is under way (contracted out by ODNR).
- c. Heath Bank Erosion – no new information, stabilization with clean concrete rubble is presumed to be continuing.
- d. Watershed Plan – US Army Corps – we have resent our letter stating our intent and have been approved; it is anticipated Federal funding to accomplish the task will be within their next budget.

- f. Proposed stream maintenance from Kirkersville – Newark – no information except it is understood that MWCD may have funds that can be requested.

New Business

- a. Hebron Grant Request to MWCD for funding to complete the flood study begun in 2015, completing the study to FEMA standards so the flood plain in portions of Hebron is more accurate with specific flood elevations.

Steve DeBolt comments – questions on the SLWCD boundary (South Fork and Raccoon Creek) and what is not included (North Fork of the Licking); our source of funding? We have no dedicated funding at this time. Boundary of the MWCD was discussed.
